Dr. Alfred,

Good afternoon. In brief, the deliberations of the search committee are confidential, and should not be discussed in general conversation. However, in response to your question, there were four finalists recommended initially by the CEA Decanal Search Committee for on campus interviews. I concurred with this initial recommendation. One finalist subsequently withdrew from consideration. I proposed some suggestions to the committee through the Chairman, and following their deliberations, the committee recommended invitation of the then Interim Dean for on campus interview. I concurred with the recommendation.

Thank you.

Subject: Engineering Decanal Search

Good afternoon,

I am writing to confirm the process that was used in the School of Engineering decanal search.

Is it correct that 3 or 4 names were submitted by the search committee to the administration? Is it also correct that Dr. Anderson, the final selection by the administration, was not on the list of the names that were submitted by the search committee to the administration?

If Dr. Anderson was not on the list submitted to the administration, can you please explain how he was selected.

Thank you,

Marcus Alfred
