Good morning colleagues,

A research issue has come up on which you all might want to make a recommendation to the council. HU is moving from peoplesoft to workday. Should this be done? Should there be changes to the implementation timeline? etc?

Also, if you or any of our colleagues have serious problems implementing your research that is not being addressed - I can take them directly to the president and board. I've used myself as a test of this and it seems to work. I'll send more in a separate email on this over the weekend.

Best,

Marcus
