Hey Professor,

Thank you for all of this! I'm sorry to keep pushing. I think we have to do both. The committee has to make recommendations - but you all probably want to get accurate information from the administration (planning, data, etc..). In addition, you might want to get information from faculty too. Database access, faculty opinions and data on (purchasing, hiring, accounting, workday, etc ...)

Marcus

Hello Dr. Alfred and Dr. Royal,

Thank you for your leadership with the Faculty Senate,

Prior to the break, I sent out an invitation for the committee members to meet but was unable to agree on a consensus time for everyone to meet. I will send out another meeting invitation for us to meet and will meet this time even if everyone is not able to join.

But I wanted to clarify, should I be meeting out to the committee members to meet or should I be reaching out to the administration instead (Provost, VP of research)?

Best regards,

Hi professor,

Hope you are well. Just checking in - has the committee gotten back to you all yet about meeting with the administration?

Best,

Marcus
